***Allowable Subject Matter***

(b) Regarding claims 10-15, the prior arts fail to teach, disclose, suggest, either alone or in combination, at least on claim 10, the metallised first wall and the second wall being spaced such that solder located on the non-metallised surface around and

immediately beyond the metallised first wall, when heated to a liquid, can flow by capillary action into and fill the space between the metallised first wall and the second wall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
